P 7 Container Closure System

The packing material used for Solifenacin Succinate Tablets BP 5 mg is as follows:

a) Primary Packing : ALU/ALU blister pack of 10 Tablets.

b) Secondary Packing : Such 10 blisters is packed into a carton along with pack insert.

The packing material specification of Solifenacin Succinate Tablets BP 5 mg is enclosed.

S.no	Packing Material
1	Aluminium Foil
2	Base Foil
3	Carton
4	Pack Insert

Quality Control Department	Packing Material Standard Test Procedure		Effective Date	07/01/2021
	Item Name	ALUMINIUM BLISTER FOIL		
	Reference	IH	Market	Export

1. Description:

Instruments : NA
Reagents : NA
Procedure : Check the visually appearance of Printed / Unprinted Blister Foil (hard) having VMCH coating on left side free from wrinkles Straight and foreign matter.

2. Thickness:

Instruments : Screw Guage
Reagents : NA
Procedure : Measure the thickness of the foil with the help of Screw Guage
Note down the results in test data sheet.

3. Width:

Instruments : Measuring Scale
Reagents : NA
Procedure : Measure the width of foil in mm by using measuring scale.

Note down the results in test data sheet.

4. Text Matter:

Instruments : NA
Reagents : NA
Procedure : Check visually and shall comply with approved shade card or specimen.

Note down the results in test data sheet.

5. Colour scheme:

Instruments : NA
Reagents : NA
Procedure : Check visually and shall comply with approved shade card or specimen

Note down the results in test data sheet.

6. Grammage of Foil:

Instruments : Measuring Scale , Analytical Balance

Reagents : NA

Cut the 10 x 10 cms piece of foil by using scale and cutter

Weigh the piece on analytical balance, note down the weight in test data sheet (W1)

Calculate the grammage of foil as per formula given below

Calculation :

$$= \frac{\text{Weight of piece in gm (W1)}}{10} \times \frac{10000}{10}$$

Note down the results in test data sheet.

7. Grammage of foil (without VMCH):

Instruments : Analytical Balance

Reagents : Acetone

Use the piece grammage of foil test, Keep the sample in acetone for about 20 min
The VMCH coating will dissolve in acetone and left with foil only

Dry the foil at room temperature and weighed the dried foil on analytical balance (W2)

Calculate the Grammage of foil (without VMCH)
as per formula given below

Calculation:

$$= \frac{\text{Weight of piece in gm (W2)}}{10} \times \frac{10000}{10}$$

Note down the results in test data sheet

8. **Grammage of VMCH coating:**
   Instruments : NA
   Reagents : NA

   Grammage of VMCH coating = Grammage of foil - Grammage of foil (without VMCH)

   Note down the results in test data sheet.

9. **Printing quality:**
   Instruments : NA
   Reagents : NA
   Procedure : Check visually that text matter shall legible and clear.

   Note down the results in test data sheet.

10. **Ink Lifting Test:**
    Instruments : NA
    Reagents : NA
    Procedure : Affix the cello tape on the printed side of foil, and shall not lift with cello tape.

    Note down the results in test data sheet..

11. **Manufacture Joint:**
    Instruments : NA
    Reagents : NA
    Procedure : Preferably no joints allowed but Maximum 3 splicer/joint are allowed with proper matching of text matter by affixing red tape for identification purpose.

    Note down the results in test data sheet.

1. **Description:**

Instruments : NA

Reagents : NA

Procedure : Rectangular shaped leaflets with colour print on white paper.

Note down the results in test data sheet.

2. **Design & Text matter:**

Instruments : NA

Reagents : NA

Procedure : Check the design and printed matter of 10 leaflets individually. It should meet as per the approved specimen. Note down the results in test data sheet.

3. **Colour Printing:**

Instruments : NA

Reagents : NA

Procedure : Check the colour printed matter of 10 leaflets individually. It should meet as per the approved artwork colour shade. Note down the results in test data sheet.

4. **Length & Width:**

Instrument : Measuring Scale

Reagent : NA

Procedure : Length and width of leaflet shall be measured with a ruler. Take 10 leaflets and measure length and width of 10 leaflets. Calculate the average length and width of 10 leaflets. Note down the results in test data sheet.
